How The Dossier uses this sample

• The scanner checks whether important protections are present, missing, or one-sided.
• It can flag payment terms, termination rights, deposit handling, liability, indemnity, governing law, renewal terms, and other playbook items.
• The result shows the exact wording that triggered a finding, so a non-lawyer can discuss it with a mentor or lawyer.
• This sample is intentionally educational and contains blanks rather than real personal information.

Important: A leave-and-license agreement is not a substitute for registration, stamp-duty guidance, society approval, police verification, or legal review. The correct process can depend on the facts and current Maharashtra requirements.
